REASONS FOR ALLOWANCE

1. This is an Examiner's statement of reasons for allowance. The closest prior He et al U.S. Pat. No. 6,088,451 discloses a system/method for securing access to network elements by user elements, wherein the network elements and the user elements are coupled to a network.

JP02002055827A Morikawa et al discloses a maintenance/ management system for network connection equipment.

IBM technical disclosure bulletin, TDB-ACC-NO: NN85046754 discloses a mechanism for secure off-site computer access.

However, neither nor singularly or in combination fail to disclose the recited feature:

As per claims 1, 9, and 11 " wherein if the user selects an insecure site while logged onn to the secure site of the server, the notification module sends a warning notice to the user to alert the user of an impending logoff from the secure site, and further sends a termination command to the secure transaction protection module for implicitly logging off the user from the secure site, and wherein the secure transaction protection module causes the session to be terminated in response to the termination command, absent an instruction from the user to maintain a connection with the secure site".
